Subject: Re: Fw: Week 1 Rollout - Update Regarding Data Team Final Review

Hi Dawn -

Thanks for touching base. Sorry for not responding earlier. Well..... we have the final data for week 1. I will start forwarding individual data summaries for each of the 11 sampling locations. Not sure - but think that they are too big to send all files in one e-mail. I will also re-send a slightly updated trigger level table for your info.

We would like you to prepare individual memos for each of the homes. Hope this is not too much of a pain.

Please call with any questions. Cell phone is best

Ex. 6 - Personal Privacy

THANKS!!!

Thanks, Kelley. As soon as the results hit my desk, I will begin my review. Meantime, I'm plowing through some other site work in an attempt to clear the next few days for Dimock. Thanks.

Dawn

Subject: Fw: Week 1 Rollout - Update Regarding Data Team Final Review

Hi Dawn -

I am forwarding the attached e-mail in order to keep you in the loop. We are very close to having "final" data for the locations sampled during week #1 (1/23/12 - 1/27/12). this includes the following: HW-01, HW-02, HW-04, HW-05, HW-06, HW-08a, HW-12, HW-14, HW-17, HW-19, HW-24.

Per our discussion yesterday, we will be sending you summary tables for each of the 11 sampling locations. All results, lab qualifiers, final qualifiers will be noted in the table. In addition, trigger levels will be noted for analytes where you provided a number - any exceedances will be highlighted.

We are working towards getting you the data ASAP. Hopefully within the next few hours - but it is difficult to call at this point.

I did speak with Rich about what we need in terms of your review. We would like you to complete the standard risk assessment and note, based on the results for each individual analyte, whether it would qualify for consideration for a removal action.

Please feel free to call me with any questions.

Thanks - Kelley

Subject: Week 1 Rollout - Update Regarding Data Team Final Review

Ex. 4 - CBI

Hi Cindy and Fred -

Thank you for all your efforts to meet the deadlines for finalizing the data for the locations sampled during week 1. Based on the ongoing reviews, with the exception of the Pace and TA subcontracted data, ALL data for week 1 is now considered "final." As such, the SERAS folks are working to noted the change from validated to final (with the appropriate qualifiers) in our Scribe database.

When you have a chance, please touch base to let me know the status of your review of Deb Killeen's comments on these two data packages. Once we accept the data as final, SERAS will note the final qualifiers in Scribe and then we will pass the data to our tox for review. Hoping to be able to do this this morning - assuming there are no outstanding issues.

THANKS again for all your help - Kelley

PACE Ethylene Glycol Data

Ex. 4 - CBI initial project level review sent in e-mail on 3/1/12 @ 11:51 amfor Pace Reports WO 5057788 Posted Feb 27 and WO5057872 Posted Feb 27 is attached. This includes files Week 1, Pace-Validated Report-R33917 5057788.pdf and Week 1+2, Pace-Validated Report-R33917 5057872.pdf
